01/ WHAT IS METANOIA?

METANOIA – Art of Transformation is an immersive contemporary ritual built around a simple proposition:

Beauty is not a fixed ideal but an act of becoming.

Through movement, fashion, sound, light, and visual art, the project explores transformation as a continuous process of reinterpreting experience and giving new form to what we carry within us.

Five bodies construct and reconstruct themselves in real time, **transforming** traces of memory, sensation, and experience through **movement.**

Like cocoons breaking open, individual journeys unfold through the courage to **become**.

As separate trajectories evolve, they gradually converge into a **shared pulse**.

METANOIA brings together choreography, fashion, sound and visual art within a single immersive language — a space where **transformation is** not observed, but **lived**.

02 / THE EXPERIENCE

METANOIA evolves from **individual experiences** into a **shared space** of **belonging**.

The experience begins with **five performers** inhabiting **cocoons** across the space.
The audience is **free to move** between them, choosing its own perspective and proximity to the performers.

While appearing to observe, each visitor already shapes the experience through their movement, **presence** and navigation of the environment.

As the performance progresses, the **boundaries** between individual worlds begin to **dissolve**.

Through **DJ set** and **immersive visuals**, the distinction between witness and participant gradually disappears.

What begins in separation culminates in a collective experience where **transformation** is no longer observed, but **embodied**.

04/ CREATIVE TEAM

Veronica Lillo

Concept Creator / Artistic Director / Choreographer

Movement artist and director whose practice explores the body as a living archive, a field of intersection and transmittor of meaning.
For METANOIA, she conceived the artistic framework, choreographic language and overall creative direction, shaping a shared vision that unfolds through movement, fashion, sound, light and visual art.

Riccardo Bernardi aka Aconite

Light Design

Berlin-based visual artist, VJ and light designer. Inspired by nature, cinema and minimalist aesthetics, he will curate the light element of the experience.

Andriy K

Sound Design

DJ and sonic curator based in Berlin. He constructs the sonic narration of the performative experience, guiding its progression through layered soundscapes.

DJ RÄK

Sound Design

DJ , sound engineer,and producer based in Berlin. He shapes the atmosphere of the final collective act, defining its rhythm, intensity and emotional tone.

W1P Studios

Fashion / Costume Design

Berlin-based fashion brand working with hand-crafted knit structures and sustainable materials. Their textured, cocoon-like garments resonate with METANOIA's exploration of organic becoming.

Rahul Sharma

Visual artist based in Berlin, working with projection and spatial imagery. He develops the visual layer of the immersive experience,

05 / WHY METANOIA?

Human beings have always gathered to transform.
Around fire, music, movement and ritual, communities found ways to reconnect with themselves and with one another. METANOIA reimagines this ancient human need through immersive contemporary experiences.
Neither performance nor party, METANOIA creates temporary worlds where transformation becomes collective and belonging emerges through participation.

PARTICIPATION

Agency begins with participation. Rather than observing from a distance, audiences actively shape their experience through movement, choice, and presence.

PULSE

As individual journeys converge, a shared rhythm emerges. Pulse becomes a common ground that connects without erasing difference.

BELONGING

Belonging emerges without conformity. METANOIA proposes a space where different bodies, backgrounds, and experiences can coexist without sacrificing their individuality.

METANOIA is an invitation to remember what connects us —
and to rediscover ourselves within a shared pulse.
